Herbal resin coasters are decorative handmade coasters created by preserving dried herbs, flowers, leaves, or botanical pieces inside clear resin. They combine natural beauty with functional home décor and are popular for gifts, craft fairs, cottagecore décor, and herbal-themed kitchens.

Fun Ways To Use Them

Coffee table décor ~ Tea cup coasters ~ Wedding favors ~ Herbal gift baskets ~ Craft fair products ~ Cottagecore kitchen décor ~ Handmade holiday gifts

They pair beautifully with herbal candles, sachets, soaps, and lanterns for themed gift sets.

These coasters often feature:

Pressed lavender sprigs ~ Rosemary branches ~ Fern leaves ~ Chamomile flowers ~ Mint leaves ~ Dried citrus slices ~ Rose petals ~ Thyme blossoms. The clear resin creates a glass-like finish that protects the herbs while showcasing their natural textures and colors.

Most herbal resin coasters have:

A glossy transparent surface ~ Embedded herbs suspended inside resin ~ Rounded, square, hexagon, or geode-style shapes ~ Botanical or rustic cottage-style designs ~ Sometimes metallic flakes, glitter, or colored edges

Herbal resin coasters are popular because they are:

Beautiful and functional ~ Handmade and customizable ~ Long-lasting keepsakes ~ Great for gifts and craft fairs ~ Perfect for cottagecore and botanical décor styles. They also preserve herbs and flowers much longer than natural dried arrangements.

IDEAS & CREATIONS!

Herbs That Preserve Well

Lavender ~ Rosemary ~ Thyme ~
Fern leaves ~ Eucalyptus ~ Mint ~ Sage

Important Tip

Herbs must be completely dry before placing them into resin. Fresh herbs can trap moisture and turn brown or cloudy over time.
