Bubbie's COOKING CLASS

♡ MEASURE WITH CARE ♡

Use dry measuring cups for flour, sugar, oats, and other dry ingredients. Use a liquid measuring cup for water, milk, broth, and oils. Level dry ingredients with the flat edge of a knife unless the recipe says otherwise.

Dry Measuring Cups

Flour
Sugar
Oats
and other
Dry Ingredients

Liquid Measuring Cup

Water
Milk
Broth
Oils
and other
Liquid Ingredients

Bubbie's Tip:

Spoon flour into the measuring cup and level it gently. Don't scoop directly from the bag, as it can pack the flour and give you too much.

Level with
the flat edge
of a knife. ♡
