Herbal

— by Cheryl Jabz —

Herbs. Health. Healing. Naturally.

Quick GROWING CHART

HERB	START INDOORS	PLANT OUTSIDE	SUN NEEDS
 Basil	April	Late May–June	 Full sun
 Oregano	Optional	Late May–June	 Full sun
 Sage	Optional	Late May–June	 Full sun
 Parsley	March–April	Mid–Late May	 Sun/part shade

BONUS GROWING TIPS

Containers: All four herbs grow well in pots—just ensure good drainage.

Frequent Harvesting: Promotes fuller, healthier plants.

Companion Planting: Basil pairs well with tomatoes; oregano and sage thrive near vegetables.

Cold Protection: Bring pots indoors or cover plants when temperatures drop.
