HERBAL LANTERN *Making*

Herbal lanterns are a beautiful craft that combines natural materials (herbs, flowers, and plants) with light sources (candles or LEDs) to create glowing, decorative pieces for home décor, rituals, or seasonal displays. Here's a clear description of how they work and how they're made:

HOW THEY WORK

When lit, the herbs glow through or around the light, creating a soft, natural ambiance.

TYPICAL MATERIALS

- Dried herbs (lavender, rosemary, sage, thyme)
- Flowers (rose petals, calendula, chamomile)
- Evergreen sprigs (pine, cedar, juniper)
- Citrus peels, seeds, or spices for scent and color

LIGHT SOURCES INSIDE

- Tea light candle (real flame)
- LED candle (safer option)
- Small string lights

PERFECT FOR

Home décor • Rituals • Seasonal displays
Gifts • Holidays • Everyday ambiance
