

Everything Herbal

by Cheryl Jabz

Step by Step Instructions

1 Gather Your Herbs

Harvest herbs in the morning after dew has dried. Choose healthy stems about 6–10 inches long. Bundle herbs into small bunches.

2 Prepare the Wreath Base

Lay your grapevine wreath flat on a table. Decide whether you want: A full wreath ~ A half wreath ~ A small accent cluster

3 Attach the Herbs

Place one herb bundle on the wreath form and secure it tightly with floral wire. Layer the next bundle slightly over the stems of the first bundle to hide the wire. Continue around the wreath until complete.

1 Add Decorative Touches

You can decorate with:
Dried flowers ~ Cinnamon sticks
~ Burlap ribbon
~ Small lemons or oranges (dried)
~ Pinecones ~ Twine bows

2 Dry the Wreath

Hang the wreath in a cool, dry place for 1–2 weeks.

3 As the Herbs Dry:

~ Colors soften naturally
~ Fragrance becomes more subtle
~ The wreath becomes lighter

Creative Herbal Wreath Themes

Lavender Relaxation Wreath | Perfect for bedrooms or spa décor with calming lavender and eucalyptus.

Rustic Kitchen Wreath | Made with rosemary, thyme, sage, and bay leaves for cozy farmhouse style.

Holiday Evergreen Herbal Wreath | Combine pine, cedar, rosemary, cinnamon sticks, and dried oranges for festive winter beauty.

Spring Garden Wreath | Use chamomile, mint, lemon balm, and pastel flowers for a fresh seasonal look.
